Depths—Limitations.—Grand Bassin, the old harbor of Agadir, is protected from
(US CH 51225) 46/99

Page 199—Lines 20 to 34/R; read:

The entrance channel has charted depths of 8.3 to 11.2m, but actual depths should be confirmed before entering.

The main basin of Grand Bassin has a total of 1,310m of berthing space, with dredged depths of 6 to 9m alongside. The fishing harbor, in the NW corner of Grand Bassin, has 740m of berthing space, with alongside depths of 3.5 to 4m.

All commercial shipping operations have been transferred to the new harbor of Port d'Anza and Agadir harbor is now only used by fishing vessels and naval craft
(Fr SD C4, 1997 ed.; US CH 51225) 46/99

Page 199—Line 37/R; insert after:

The new port facilities at Anza have been constructed close NW of Grand Bassin. The facilities are protected by large breakwaters and approached through an access channel, all of which are best seen on the chart. Berth information is given in the accompanying table.

Berth	Length	Depth	Remarks
Grain berth	300m	15m	Southwest side of harbor
Container berth	270m	105m	Northwest side of harbor
General cargo	640m	10.5m	
Jetee Est	100m	8.5m	Southeast side of harbor. Oil and LPG.

(Fr SD C4, 1997 ed.; BA NP 1, Supp. 7/99) 46/99

Page 199—Line 46/R; insert after:

Port Aghazdis old light structure stands on the root of the outer breakwater of Port d'Anza and is very conspicuous. Other conspicuous landmarks include several radio masts

standing on a hill 0.6 mile ENE of the old light and a group
of silos about 0.4 mile N of the old light.
